RS-539 TECHNICAL DATA

Pre-Cleaner Aerosol

DESCRIPTION:

RS-539 Pre-Cleaner Aerosol is a pre-paint cleaner for all finishes. This is an excellent cleaner for removing contaminants from the surface such as silicones, waxes, grease and tar. **RS-539 Pre-Cleaner Aerosol** works well as a final cleaner before applying topcoats.

FEATURES:

- Convenient aerosol package
- Quickly removes contaminants from the surface
- Wipes clean with no residue

APPLICATION:

Pre-Cleaner

1. Wash surface with soap and warm water to remove dirt and other waterborne contaminants. Dry the surface before using **RS-539 Pre-Cleaner Aerosol.**
2. Apply **RS-539 Pre-Cleaner Aerosol** directly to the surface to be cleaned.
3. Allow to lay on surface to remove contaminants. Do not allow to dry.
4. Wipe the area dry with a clean, dry, lint-free cloth before the solvent evaporates.

Note: The above steps are recommended before grinding or sanding any repair area. If these steps are not followed there is a possibility of forcing contaminants into the metal or surface which could result in poor adhesion of filler and /or primer as well as topcoating issues.

Final Wash

1. Blow off area with compressed air.
2. Apply **RS-539 Pre-Cleaner Aerosol** to the surface.
3. Wipe the area dry with a clean, dry, lint-free cloth before the surface dries.

Note: RS-539 Pre-Clean is not V.O.C. compliant in the following states:

No Sales in these states

California	Maryland	Pennsylvania
Connecticut	Massachusetts	Rhode Island
Delaware	New Hampshire	Vermont
District of Columbia	New Jersey	Virginia
