

Get Small Repairs Done **Right** and Done **Quickly** Using Select Shade™ *Dual Prime* Aerosols!

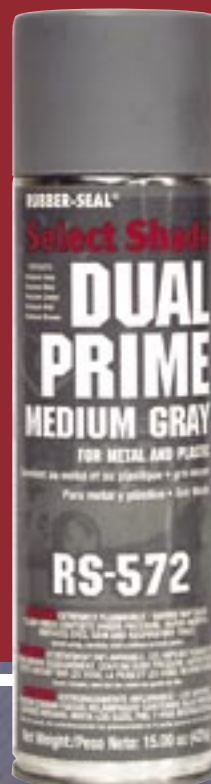

- Dramatically increase the coverage and hiding of your basecoats by matching the correct shade of Dual Prime to a car's color (Refer to chart under each color)
- Superb Build
- Exceptionally easy to sand
- Fan spray tip: Easy to apply in even layers
- Lays down beautifully: No coarse finish to sand off
- Sand and topcoat in 20 minutes or less (Dry time is dependent on film thickness and temperature)
- Only 5 minute flash between coats
- Good solvent resistance
- Apply basecoat directly to Dual Prime (No sealer needed)
- Apply directly to metal on cut-through areas
- Apply directly to scuffed e-coated parts
- Compatible with ALL basecoat systems
- You can apply polyester filler over Dual Prime
- Designed to powerfully adhere to both plastic and metal: Save shelf space (Use RS-620 Flexi-Clean and RS-590 Flexi-Grip prior to application on TPO and Polypropylene Bumpers)
