## **MRS-7300**

## **TECHNICAL DATA**

*Plastic Werkes*

### **Plastic Blast Plastic Cleaner**

#### **DESCRIPTION:**

**MRS-7300 Plastic Blast** is a water-based plastic cleaner formulated for use on raw plastics as well as OEM painted surfaces. This cleaner will not etch or soften raw plastics such as TPO, TEO and PP. It is designed to be used as a cleaner for the *Plastic Werkes* Plastic Primer sealer and Clad Colors. Available in a quart bottle with a sprayer top.

#### **FEATURES:**

- ✓ Leaves no residue when used properly
- ✓ 50 state compliant
- ✓ Removes many contaminants that solvent base cleaners will not
- ✓ Slow evaporating formula

#### **APPLICATION:**

##### **Pre-Cleaner/Final Wash**

1. If surface is contaminated with dirt, mud and grit, wash with soap and warm water before using **MRS-7300 Plastic Blast**.
2. Apply **MRS-7300 Plastic Blast** directly to cool surface to be cleaned. Allow pre-cleaner to lay on the surface to penetrate contaminants.
3. Remove pre-cleaner before it dries on the surface using clean, lint-free cloth. Wipe until the surface is dry.
4. To check plastic cleanliness, water will sheet off not bead when applied to the plastic.

Material Safety Data Sheet (MSDS) is available on our website
