

MRS-7980W

PRODUCT DESCRIPTION MRS-7980W TEK ELITE Primer Surfacer is a two-component, urethane primer with excellent film-build and sands easily. It has excellent anti-corrosion properties and can be used on a variety of automotive substrates. MRS-7980W is easy to spray and levels to an almost texture-free surface.

SUITABLE SUBSTRATES

Cold Rolled Steel* Stainless Steel* Galvanized/Galvaneal*

Aluminum Fiberglass/SMC Automotive Plastics‡

Body Filler/Putty Factory E-coats

*Properly sanded and cleaned

‡Adhesion promoter should be used to ensure proper adhesion

MIXING

4 parts : **1 part** MRS-7980W : MRS-798

NOTE: Make sure product is at room

temperature (72°F) before mixing.

NOTE: MRS-7980W can be reduced up to 1 part Zero VOC Reducer (MRS-165, MRS-175 or MRS-185) to improve flow and extend dry time in hot climates. Using reducer will decrease dry film thickness.

APPLICATION

Apply 2 to 3 wet coats of MRS-7980W, allowing 10-15 minutes flash time between coats Recommended gun setup can be found on page 2 under Technical Data

SURFACE PREPARATION

Wash area with soap and water, then thoroughly clean with wax and grease remover

Sand surface with 180 - 220 grit sandpaper

Re-clean area with wax and grease remover

NOTE: Aluminum should be prepared by scuffing with a red scuff pad.

DRY-TO-SAND TIMES

Air Dry $1 \frac{1}{2}$ - 2 hours Force Dry 30 minutes

SANDING

Sand primer surfacer with 180 - 220 grit sandpaper

NOTE: Wet sanding is not recommended when applied over bare metal.

Finish sand with 320 - 400 grit sandpaper for sealer or 400 - 600 grit sandpaper for basecoat

PERSONAL PROTECTION

- For use by trained professionals only
- Read label, directions and MSDS before use
- Wear appropriate Personal Protection Equipment (PPE) while mixing and spraying
- For additional health and safety information refer to the MSDS which can be found at www.medallionrefinish.com

APPLICATION

Apply 1 full wet coat with a 1.3 mm – 1.4 mm gun setup

Allow sealer to flash for 30 minutes

Apply basecoat according to paint manufacturer's recommendations

If recoating after 24 hours, then scuff and recoat

TECHNICAL DATA

Color White

Mix Ratio 4:1 (up to 1 part Reducer Optional)

Pot Life 30 min. @ 72°F/22.2°C, 50% RH

Dry-Film-Thickness 4 – 6 mils per coat

 Gun Setup (HVLP)
 1.6 mm – 1.8 mm

 Air Pressure
 8 – 10 psi HVLP

40 – 45 psi Conventional

% Solids by Weight 53.5% (Sprayable, no reducer)

Shelf Life (Unopened) 12 months

HEALTH & SAFETY

See Material Safety Data Sheet and labels for additional safety information and handling instructions.

- The contents of this package may have to be blended with other components before the product can be used. Before
 opening the packages, be sure you understand the warning messages on the labels and MSDSs of all component,
 since the mixture will have the hazards of all its parts.
- Improper handling and use, for example, poor spray technique, inadequate engineering controls, and or lack of Personal Protective Equipment (PPE), may result in hazardous conditions or injury.
- Follow spray equipment manufacturer's instructions to prevent personal injury or fire.
- Provide adequate ventilation for health and fire hazard control.
- Follow company, product MSDS and respirator manufacturer's recommendations for selection and proper use of respiratory protection. Be sure employees are adequately trained on the safe use of respirators per company and regulatory requirements.
- Wear appropriate PPE such as eye and skin protection. In the event of injury, see first aid procedures on MSDS.
- Always observe all applicable precautions and follow good safety and hygiene practice.
